

High Lite Featherweight

NEVER COMPROMISE  
START WITH YOUR VISION

Enjoy comfort and  
brightness in an ultra light  
fiber optic headlight

Use our clip-on format  
for your loupes

Small yet powerful, our High Lite Featherweight is an exceptionally low-profile headlight with an adjustable spot size. While ideal for the examination room, many surgeons also prefer it as an ultra lightweight alternative for the OR, use our clip-on format for your loupes.

With the High Lite you can choose our form-fitted, sturdy and dual-adjustable Classic headband, our soft Breath-O-Prene® Sport headband or the ultra-lite clip on model.

# High Lite Featherweight

NEVER COMPROMISE  
START WITH YOUR VISION

The High Lite Featherweight is the perfect companion to our Minimax™ T3 light source. For more intense light use our Maxenon™ Xi300, Maxenon™ PowerPlus or Maxillume™ Quartz Halogen series.
